Using Extended ECM for SAP SuccessFactors for Employees Training

Duration: **1 Day**

BILGINC IT Academy
info@bilginc.com
bilginc.com

This course is designed to introduce employees to the **Extended ECM for SAP SuccessFactors** solution.

Participants explore the different components of the solution and learn how employees can use Extended ECM for SAP SuccessFactors to complete HR-related tasks.

The training combines explanation with hands-on exercises, helping learners transfer the knowledge gained during the course into their day-to-day working environment.

By the end of the training, participants should be better prepared to use and manage their **digital employee file** throughout their lifecycle with the organisation.

Prerequisites

There are no prerequisites for this course.
