Configure and Govern Entitlement with Microsoft Entra ID Training

Duration: **1 Day**

BILGINÇ IT Academy
info@bilginc.com
bilginc.com

This course provides an in-depth understanding of how to configure and govern entitlement using Microsoft Entra ID. Participants will learn how to manage access through entitlements, access reviews, and privileged access tools while monitoring access events to maintain security and compliance. The course covers planning and implementing entitlement management, conducting access reviews, and leveraging Microsoft Entra Permissions Management for secure identity governance.

Prerequisites

Participants should have:

- Basic knowledge of Azure administration.
- Ability to create users and groups using Microsoft Entra.
- Familiarity with identity and access management principles.

Target Audience

This course is designed for:

- IT administrators responsible for managing identity and access.
- Security professionals ensuring compliance and governance.
- Organisations implementing Microsoft Entra ID for secure access management.

What You Will Learn

By the end of this course, learners will be able to:

- Plan and implement entitlement management for new and external users.
- Conduct and manage access reviews to ensure secure access.
- Monitor and maintain Microsoft Entra ID using audit and diagnostic logs.
- Plan and implement privileged access to protect administrative roles.
- Utilise Microsoft Entra Permissions Management to discover, remediate, and monitor access.
