Overview

The need for organisations to continuously innovate and adapt their services to meet the ever-changing, and increasingly demanding, expectations of their customers is more of a challenge today than ever! A seamless service experience for the customer can have a huge impact on an organisation's reputation, customer acquisition and retention and indeed the company's overall growth. In the digital age, it has become critical to understand more about the organisation's customers and what motivates, delights and even annoys them.

Prerequisites

There are typically no formal prerequisites to take the A4Q CX Analysis certification.
