+90 212 282 7700

Overview

Configuring Billing in SAP S/4HANA Sales focuses on the essential configuration settings required to manage billing within SAP S/4HANA sales processes.

Throughout the course, participants explore the role of billing documents within Sales and Distribution, the organisational structures that support billing, and the configuration of the overall billing process. Key areas include billing type configuration, copying control for billing, and account determination.

The course also extends beyond standard billing activities to cover specialised business processes such as billing plans, down payment processing, and instalment payments. Participants examine the integration between Sales and Distribution (SD) and Financial Accounting to understand how billing information connects with financial processes.

Additional Information

This course is the successor to the **S4615** course.

Course Based on Software Release

The course is based on:

- **SAP S/4HANA Cloud Private Edition 2023**
- **SAP S/4HANA 2023**

Prerequisites

Essential

S46000 – SAP S/4HANA Sales Essentials
