Overview

New - An in-depth two-day immersion into the world of the ScrumMaster role.

Advanced Certified ScrumMaster (A-CSM) is an in-depth two-day immersion into the world of the ScrumMaster role. The class explores Agile Facilitation and Agile Coaching and how the ScrumMaster uses these skills to support the team, the Product Owner and the Organization. The class is full of real-world examples from the attendees' experiences and coaches attendees through practical tools and techniques that can be implemented immediately at your workplace. The class is a deep dive into your role as a ScrumMaster and the hands-on activities and exercises demonstrate key concepts and let you experience the next level of Scrum firsthand.

This course is offered in partnership with Cprime Learning, a Scrum Alliance Registered Education Ally (REA).

Who Should Attend?

- Individuals who have been in the ScrumMaster role for at least 12 months
- IT Leadership (Managers/Directors/VPs/CIOs/CTOs)
- Project Managers

Prerequisites

Anyone is welcome to take this course, however to receive your Advanced Certified ScrumMaster™ (A-CSM™) you need to:

- Have a current Certified ScrumMaster™ Certification (CSM™)
- Complete the 2 day Advanced Certified ScrumMaster™ (A-CSM)
- Have at least 12 months of experience within the last 5 years that you demonstrate by updating the experience on your Scrum Alliance Profile.

Additionally, although it is not mandatory, students who have completed a foundational Agile course have found it very helpful when completing this course.
