# JumpStart to Jira for End Users (TTDV7541) Training

Duration: **2 Day**

BILGINC IT Academy
info@bilginc.com
bilginc.com

**Learn how to use Jira as an Agile team member.**

Tracking issues is a critical component of your project management strategy. Jira provides a web based repository for creating, tracking, and reporting on feature requests, bugs reported, or managing your workflow. This hands-on course enables you to work with a Jira instance and “learn by doing”. The course focus is on exploring best practices and practical skills through hands-on activities.

You’ll also receive a copy of Jira Essentials - Fourth Edition by Patrick Li.

**Who Should Attend?**

This course is for new Jira end users.

## Prerequisites

You should have experience in Enterprise application development and working on project teams.

## What You Will Learn

Join an engaging hands-on learning environment, where you’ll explore:

- Getting started with Jira
- Using Jira for Business Projects
- Using Jira for Agile Projects
- Issue Management
- Field Management
- Screen Management
- Workflows and Business Process
- Searching and Filtering

This course has a 50% hands-on labs to 50% lecture ratio with engaging instruction, demos, group discussions, labs, and project work.

## Training Outline
