Overview

Professional Scrum Master™ – Advanced (PSM-A) is an advanced-level course designed for experienced Scrum Masters who want to strengthen their leadership capabilities and expand their impact within Scrum Teams and organizations.

While foundational Scrum courses focus on the Scrum framework and core responsibilities of the Scrum Master, PSM-A explores the behaviors, mindsets, and techniques that distinguish highly effective Scrum Masters. Participants will learn how to better support Developers, Product Owners, stakeholders, and organizational leaders while fostering a culture of agility and continuous improvement.

The course also includes one free attempt at the globally recognized Professional Scrum Master II (PSM II) certification assessment.

Prerequisites

Participants are strongly encouraged to have:

- At least one year of Scrum Master experience
- A solid understanding of Scrum principles and values
- Practical experience working with Scrum Teams
- Previous Professional Scrum Master (PSM) training or certification is recommended

Who Should Attend

This course is ideal for:

- Experienced Scrum Masters
- Agile Coaches
- Agile Transformation Leaders
- Team Leaders working within Scrum environments
- Professionals seeking to increase organizational agility
