Overview

The **Cross-Functional Customizing in SAP S/4HANA Materials Management** course provides comprehensive knowledge of customizing and configuration tasks in **SAP S/4HANA MM**.

Participants will learn how to configure **general settings, organizational units, and master data** relevant to Materials Management. The course also includes **valuation, account determination**, **purchasing**, and **inventory management** customizing.

This program is designed for professionals who already have a solid understanding of SAP MM business processes and wish to expand their technical and customizing expertise.

Prerequisites

Mandatory:

- Solid understanding of **SAP S/4HANA Materials Management (MM)** processes and transactions.
- Familiarity with **Procurement, Inventory Management**, and **Valuation** concepts.

Recommended:

- Completion of **S4H00 – SAP S/4HANA Overview** and **S4H01 – SAP S/4HANA Materials Management Fundamentals**.
- Basic experience in **SAP MM configuration** and **navigation** (Fiori or GUI).

Who Should Attend

- **Application Consultants**
- **Super / Key / Power Users** in the Materials Management area
