## Overview

**New - Learn how to monitor, investigate, analyze, and configure SonicWall Next-Gen firewalls running SonicOS to enable advanced functionality related to Secure and Remote Connectivity, Network Optimization, and Threat Prevention.**

A key issue affecting an organization's business productivity and employee efficiency today is its ability to respond to dynamic changes in the cyber threat landscape.

To build on the knowledge you acquired by completing the SNSA certification, SonicWall presents the SonicWall Network Security Professional (SNSP) for SonicOS 7 course. The SNSP for SonicOS 7 is an expert-level training and certification program that builds on the enterprise security skills learned in the SNSA course.

The SNSP for SonicOS 7 curriculum expands on the topics covered in SNSA for SonicOS 7 and features advanced SonicWall firewall configuration and administration tasks aimed at helping enterprises adapt to dynamic security environments.

The new SNSP curriculum includes an enhanced and deeper scope of the SonicOS7features and functionality, as well as changes in the learning and delivery methodologies, to better balance the professional needs of the students and the business requirements for network and cyber security.

Be advised that with the purchase of this class you will receive ONE FREE EXAM VOUCHER in order to help you pass the SNSP certification.

**Who Should Attend?**

Security professionals, System engineers, channel partners, service partners, and end-users with at least one year of experience implementing IT security technologies (Network, Applications, and Systems) and SNSA certified.

## What You Will Learn

The students will learn how to monitor, investigate, analyze, and configure SonicWall Next-Gen firewalls running SonicOS 7 to enable advanced functionality related to Secure and Remote Connectivity, Network Optimization, and Threat Prevention. Upon completing the SNSP for SonicOS 7 program, the students will be able to demonstrate SonicWall product expertise and the application skillsets required to defend against limitless network and cyber threats effectively and implement SonicWall Boundless Cybersecurity safeguards for seamless protection.
