Overview

The {*training} equips participants with the knowledge and skills necessary to establish, implement, manage, and maintain a **Business Continuity Management System (BCMS)** in accordance with ISO 22301 — the international standard for organizational resilience.

Throughout this intensive 4-day course, participants gain a deep understanding of business continuity principles, risk assessment, crisis management, and recovery strategies, enabling organizations to maintain critical operations even during disruptions.

Upon completing the training and passing the exam, participants earn the**"PECB Certified ISO 22301 Lead Implementer"** credential — a globally recognized certification demonstrating the competence to implement and manage ISO 22301 effectively.

Key Benefits

Benefit	Description
Comprehensive Expertise	Learn to establish and manage a BCMS aligned with ISO 22301
Practical Implementation	Acquire actionable methods for real-world business continuity
Career Growth	Gain global recognition with PECB certification
Organizational Resilience	Help your company operate smoothly even in crisis

Bilginç IT Academy is a **recognized official training partner of PECB (Professional Evaluation and Certification Board)**.
