bilginc.com

Overview

The goal of this course is to provide you with the knowledge required as a site administrator or owner of Microsoft SharePoint sites to create, configure and manage SharePoint Sites in Office 365/Microsoft 365.

Note – If you are a 'back end' SharePoint Administrator looking for training on the SharePoint Admin Center, you should attend the following course: Mastering SharePoint Online Design, Architecture and Best Practice Administration – QAASPOE.

The course emphasises hands-on experience, with a series of self-guided exercises integrated into the training.

Prerequisites

- Attendance of the Mastering SharePoint Fundamentals Course – QASPEUOL1 or equivalent knowledge and experience of Microsoft SharePoint
- A basic understanding of Windows 10 or higher.
- Experience using Microsoft Edge or equivalent browser.
- Fundamental experience with Office 365/Microsoft 365 is recommended, including Logging in and navigating around Office 365/Microsoft 365.
- A basic knowledge of Office applications (Word, Excel, Outlook).

Dual monitor setup is required when attending this course via the QA Attend from Anywhere or Virtual Classroom delivery methods.

Before you book, check that you meet the Cisco WebEx system requirements and run a test meeting to ensure the software is compatible with your firewall settings and ensure that you have passed all pre-course tests. If you have any questions, contact our Virtual team. Learn more about our Virtual Classrooms.

Target Audience

Roles include site administrator or owner of Microsoft SharePoint

Microsoft SharePoint Online For Site Owners Training

Duration: **4 Day**
