Overview

This AI Landscape and Trends Mastery Webinar explores what recent AI developments mean for brands and their consumers. With specific examples that illustrate the power of AI and its application to marketing, it discusses how to reap the rewards. It also looks at how the expectations of customers will change as a result of the widespread adoption of AI, and how marketeers can expect to work alongside AI in future. The webinar will conclude with a question-and-answer session.

Prerequisites

Participants should have:

- A foundational understanding of digital marketing principles
- Basic knowledge of AI technologies and their applications in business
- An interest in emerging AI trends and their societal impact

Target audience

This course is designed for:

- Marketing professionals exploring AI-driven strategies
- Business leaders seeking insights into AI's role in customer engagement
- Digital transformation and innovation teams integrating AI into workflows
- Anyone interested in the intersection of AI, ethics, and regulation
