

# COBIT 2019 Foundation Course

Learn via: **Classroom / Virtual Classroom / Online**

Duration: **2 Days**

## **Overview**

COBIT is a framework for the governance and management of enterprise Information and Technology that supports enterprise goal achievement. This two day (\*training) highlights the concepts, models and key definitions of the new framework. The course will cover the eight key areas of the COBIT 2019 including: framework introduction, principles, governance system and components, governance and management objectives, performance management, designing a tailored governance system, business case and implementation. The associated online exam will need to be booked separately with ISACA at a time and date of your choosing. The COBIT 2019 Foundation certificate exam is an online, closed-book, remotely proctored exam. The exam covers the eight key areas and is 120 minutes long, with 75 questions and delegates will require at least 65% to pass.

## **Prerequisites**
