

# TOGAF® 9 Foundation and Certified: Level 2

Learn via: **Classroom / Virtual Classroom**

Duration: **2 Days**

## **Overview**

The TOGAF® 9 standard is the foremost generic framework in the field of IS/IT Architecture. It contains substantial guidance on what to do to establish an architecture practice and then how to use it in connection with planning the longer-term transformation of the enterprise (strategic architecture), and designing capabilities to support it.

The course deals with the Certified concepts, and so looks beyond the essentials to give delegates a deeper understanding of the framework (Version 9.2). It also spans the Learning Points required to take the TOGAF® Level 2 exam, and during the course delegates will be helped to prepare for this exam.

For full details of the TOGAF® standard certification scheme, visit the following link:

<http://www.opengroup.org/togaf9/cert/docs/indiv.tpl?CALLER=index.tpl>

## **Examinations**

The course fee includes the cost of the exam voucher for the TOGAF® 9 Level 1 exam. You can redeem this directly with Pearson VUE when you are ready to take the exam.

## **Prerequisites**

Delegates who have already achieved certification at Level 1 can attend this course, and will only be required to sit the Level 2 exam. However anyone can attend this course without first achieving Level 1 certification. But in order to achieve Level 2 Certification they must also sit the Level 1 exam.

## **What You Will Learn**

At the end of this course you will be able to understand:

- The Architecture Development Method (ADM)
- The Architecture Content Framework
- The Architecture Repository
- The TOGAF® 9 standard Reference Models
- Architectural Governance and Capability - governance board, skills and maturity

## **Outline**

- Course Introduction
- The Architecture Repository
- The Architecture Content Framework
- The Architecture Metamodel
- Business Scenarios
- Stakeholder Management
- The Preliminary Phase
- Architecture Governance
- Phases A to F
- Phases G to H
- Requirements Management
- Architecture Partitioning
- Adapting the ADM
- Maturity Models
- Skills Framework
- Exam Preparation

## Examinations

The course fee includes the cost of the exam voucher for the TOGAF® 9 Level 1 exam. You can redeem this directly with Pearson VUE when you are ready to take the exam.
