F0610 - Applying Business AI Solutions and Expertise in SAP Finance Training

BILGINC IT Academy
info@bilginc.com
bilginc.com

Duration: **2 Day**

The **Applying Business AI Solutions and Expertise in SAP Finance** training course introduces participants to AI-powered solutions within SAP Finance and explores how artificial intelligence can be applied to financial business processes.

Throughout the course, participants will discover the capabilities of **SAP Joule**, **Joule Agents**, and **Joule for Consultants** in finance-related scenarios. They will explore practical applications, including intelligent asset accounting, AI-driven financial insights, and the summarisation of allocation run results.

The course also examines the financial capabilities of **SAP Business Data Cloud**, with a particular focus on financial reporting, financial planning, and opportunities to enhance finance processes.

Prerequisites

Participants are expected to meet the following requirements before attending the course:

- Completion of the **Discovering AI Capabilities for SAP Finance** learning journey
- A basic understanding of how accounting business processes are configured and executed within SAP Finance

The required foundational knowledge can be developed through the following training courses:

- Outlining the Financial Accounting Overview
- Outlining Cost Management and Profitability Analysis

There are no additional recommended prerequisites.

Who Should Attend

This course is designed primarily for **SAP consultants** and consultants who wish to develop their understanding of AI-powered solutions and their applications within SAP Finance.
