bilginc.com

Overview

Course based on software release:

- SAP HANA 2.0 SPS07

Notes:

- In case you need to "deep dive" on specific subjects, this course can be coherently combined with the other courses in the SAP HANA curriculum, for example HA215 for SAP HANA monitoring and performance tools, and HA250 for database migration.

Prerequisites

Essential

- HA200

Recommended

- Some experience with the Linux operating system
- Some experience in database administration

Who Should Attend

- Database Administrator
- Help Desk/CoE Support
- System Administrator
- Technology Consultant

What You Will Learn

- This course will prepare you to:
  - Install and configure a high available multi host SAP HANA scale- out database system.
  - Understand what happens to SAP HANA scale-out system during a failure of a slave or master node.
  - Install and configure SAP HANA system replication with the classic setup and the new Active/Active setup.
  - Configure SAP HANA Time Travel
  - Copy and move SAP HANA tenants using tenant replication.

HA201 - SAP HANA High Availability and Disaster Tolerance Administration Training
