bilginc.com

The **ISACA COBIT 7 Foundation training course** introduces participants to the COBIT framework and its role in supporting the governance of enterprise information and technology (EGIT).

Participants will learn how to align IT objectives, investments, resources, and risks with strategic business goals. The course also develops foundational knowledge of **COBIT principles, governance systems, performance management, and implementation approaches**.

This training is designed for professionals seeking to understand enterprise information and technology governance and how governance systems can be tailored to organizational requirements.

Please note: The official ISACA COBIT 7 Foundation exam is not included in the course fee. Participants attending the training may purchase the exam voucher separately. Exam vouchers are available exclusively to attendees of the associated training and cannot be purchased as standalone products.

Exam and Certification

The ISACA COBIT 7 Foundation exam is designed to assess candidates' knowledge and understanding of the COBIT framework rather than their ability to memorize information.

Exam details:

- Exam delivery: Online proctored examination
- Number of questions: 75
- Question format: Multiple-choice
- Exam duration: 120 minutes
- Exam format: Closed-book

Prerequisites

There are no formal prerequisites for attending the**ISACA COBIT 7 Foundation training course**.
