# Mastering SharePoint Online Fundamentals Training

Duration: **1 Day**

BILGINÇ IT Academy
info@bilginc.com
bilginc.com

This one-day course is designed to provide end users with a comprehensive introduction to SharePoint Online, Microsoft's powerful collaboration platform. Participants will gain a solid understanding of SharePoint components, site roles, and essential functionalities for effective document management and team collaboration. Through hands-on exercises and practical examples, attendees will learn how to work with lists and libraries, add columns, create views, and navigate the key features of SharePoint Online.

You will discover and understand:

- What SharePoint is and how it fits into Microsoft Teams and Microsoft 365.
- Key benefits of SharePoint.
- What is a SharePoint Site and what is the difference between a Team Site and a Communication Site.
- SharePoint Document Libraries and Microsoft Lists.
- SharePoint Document features including versioning, metadata and co-authoring.
- SharePoint Pages, News, Events and Spaces.
- Extended SharePoint functionality via apps.
- SharePoint permissions and sharing with people inside and outside the organisation.
- Microsoft Search to discover information within SharePoint and across Microsoft 365.

This course is designed for users who are new to, or have basic skills with, SharePoint and want to **understand** SharePoint and be able to **use** SharePoint.

If you want to learn **End User Site Administration** to **create, configure and manage** sites you should look at the Mastering SharePoint Site Administration – QASPOSA course.

## Prerequisites

- A basic understanding of Windows 7 or higher.
- Experience using Internet Explorer 11 or equivalent browser.
- Fundamental experience with Office 365 is recommended, including login and navigation around the service.
- A basic knowledge of Office applications (Word, Excel, Outlook).

Please Note: If you attend a course and do not meet the prerequisites, you may be asked to leave.

A dual monitor setup is required when attending this course via the QA Attend from Anywhere or Virtual Classroom delivery methods.

Learners attending via Virtual Classroom or Attend From Anywhere events will need to use remotely hosted computers and/or InPrivate/Incognito/Google Guest/Microsoft Edge Guest browsing mode to access our SharePoint environment.

Before you book, check that you meet the Cisco WebEx system requirements and run a test meeting to ensure the software is compatible with your firewall settings and ensure that you have passed all pre-course tests. If you have any questions, contact our **Virtual team**. Learn more about our **Virtual Classrooms**.
