bilginc.com

The **Additional Financial Accounting Configuration in SAP S/4HANA** course deepens your understanding of **automation and control functions** in SAP Financial Accounting (FI).

You will learn how to configure and use **automatic payment processing, dunning, correspondence, and special G/L transactions** for both customer and vendor accounts.
The course also covers **document parking, validations, substitutions**, and **data archiving** to ensure compliance and financial data integrity.

This course is ideal for consultants who want to master advanced configuration topics within SAP S/4HANA Finance.

Prerequisites

Essential:

- **S4F12 – Basics of Customizing for Financial Accounting: GL, AP, AR in SAP S/4HANA**

Recommended:

- **F1120 – Outlining the Record-to-Report Process in SAP S/4HANA**
- **F1130 – Describing the Payables Management Process in SAP S/4HANA**
- **F1140 – Describing the Receivables Management Process in SAP S/4HANA**

Who Should Attend

- Application Consultants
- Business Process Owners
- Team Leads / Power Users
