Overview

A hands on course covering Session Border Controllers with a focus on the technical workings of features commonly found in Session Border Controllers. Hands on practicals follow each major theory session. SBC SIP QOS SIP-I.

Prerequisites

There are no formal prerequisite courses, just a good knowledge of how SIP works.

A good suggested course would be Definitive SIP for Engineers

What You Will Learn

By the end of the course delegates will be able to:

- Explain how Session Border Controllers work.
- Explain the SIP call flow using a SBC.
- Deploy Session Border Controllers.
- Describe the features found in Session Border Controllers.
