Overview

This course provides an in-depth understanding of how to implement retention, eDiscovery, and communication compliance using Microsoft Purview. Participants will learn how to manage data lifecycle, records management, eDiscovery processes, and communication compliance to ensure their organization meets regulatory requirements and manages data effectively.

Prerequisites

- Basic understanding of data governance and compliance concepts.
- Familiarity with Microsoft Purview and its interface.
- Knowledge of data lifecycle management principles.
- Experience with eDiscovery processes.
- Awareness of communication compliance requirements.

What You Will Learn

By the end of this course, participants will be able to:

- Implement and manage data retention and records using Microsoft Purview.
- Utilize Microsoft Purview eDiscovery (Premium) to preserve, collect, analyze, review, and export content for internal and external investigations.
- Prepare and configure Microsoft Purview Communication Compliance to address code-of-conduct policy violations and meet supervisory compliance requirements.
- Ensure data compliance and governance using Microsoft Purview to meet regulatory requirements.
