S4224 - Production Planning with SAP S/4HANA PP/DS Training

Duration: **5 Day**

BİLGİNÇ IT Academy
info@bilginc.com
bilginc.com

Overview

This {*training} provides a comprehensive understanding of Production Planning and Detailed Scheduling (PP/DS) in SAP S/4HANA, which was formerly part of SCM/APO.

Prerequisites

Essential: S4222 Production Planning in SAP S/4HANA – Fiori based

Recommended: S4200 Business Processes in SAP S/4HANA Manufacturing

Who Should Attend

- Application Consultant
- Business Process Architect
- Business Process Owner / Team Lead / Power User
- Solution Architect
- Trainer

What You Will Learn

By the end of this {*training}, you will have gained knowledge and skills in the following areas:

- Execute production planning tasks
- Manage day-to-day exceptions
- Walk through net requirements calculation
- Perform scheduling for new orders
- Analyze source determination rules and scheduling strategies
- Understand pegging functionality and related master data parameters
- Perform detailed scheduling activities

Outline

S4224 - Production Planning with SAP S/4HANA PP/DS Training

Duration: **5 Day**

BİLGİNÇ IT Academy
info@bilginc.com
bilginc.com

- Introduction to Production Planning and Detailed Scheduling in embedded PP/DS
- Planning demand in the supply chain
- Evaluating production planning results
- Executing production planning in Product View
- Analyzing planning run results with alerts
- Planning procedure
- Configuring basic planning parameters
- Running the production planning process
- Planning a product using the planning procedure
- Order creation with product heuristics
- Using demand management in PP/DS
- Planning make-to-order production in PP/DS
- Using firming in PP/DS
- Configuring product heuristics
- Scheduling in production planning
- Determining the source of supply for an order
- Scheduling operations with the strategy profile
- Scheduling a planned order for production
- Pegging in production planning
- Configuring dynamic and fixed pegging
- Additional heuristics in production planning
- Planning production using process heuristics
- Planning production using service heuristics
- Scheduling operations with the detailed scheduling planning board
- Using detailed scheduling strategies and heuristics for production planning
- Managing setup times with the setup matrix
- Managing scheduling with the PP/DS optimizer

S4224 - Production Planning with SAP S/4HANA PP/DS Training
