Overview

This course is for administrators who want to learn about the installation, upgrade, system management, network integration and other tasks required to effectively administer HPE Ezmeral Container Platform 5.3. Hands-on labs are included.

Prerequisites

• Unix/Linux user and administration experience

• Hadoop/AI/big data application administration experience (Cloudera/ Hortonworks, Jupyter Notebook, Tensorflow, etc.)

• Experience in machine learning lifecycle (e.g. model training/development and model deployment)

• bash/shell/python scripting
