Overview

The **ISO 14001:2015 EMS Lead Implementer Training Course** provides participants with an in-depth understanding of environmental management systems and the skills to effectively implement and lead an EMS within their organization.

This course combines **ISO 14001 requirements** with implementation best practices, including leadership, delegation, and motivation — essential for driving environmental performance and compliance.

Why Choose This Course?

- Learn to lead environmental management initiatives
- Integrate ISO 14001 effectively into your organization
- Improve sustainability and regulatory compliance
- Build leadership and implementation skills

Bilginç IT Academy is a **recognized official training partner of PECB (Professional Evaluation and Certification Board)**.
Through this partnership, we deliver **globally accredited PECB-certified training programs**, enabling professionals to gain international recognition and practical expertise in areas such as Artificial Intelligence Management, Information Security, Environmental, and Quality Management Systems.
