Scrum is a lightweight yet powerful framework that enables teams to deliver**maximum value to customers** while improving collaboration, transparency, and adaptability. It encourages leadership over command, supporting **self-organizing, cross-functional teams** by removing obstacles and fostering continuous improvement.

Unlike traditional project management, Scrum requires a shift in mindset and the application of empirical thinking and Agile values to thrive in complex environments.

This interactive Certified ScrumMaster (CSM) course is designed for those new to Scrum or looking to formalize their Scrum experience through certification. It offers a **comprehensive deep-dive into the Scrum Framework**, its roles, events, artifacts, and the values and principles that drive its success.

Training Format & Certification

- **Duration:** 2 full days (total of 12 instructional hours)
- **Time:** 9:00 AM to 5:00 PM (includes 1.5 hours of breaks)
- **Delivery:** Live, interactive sessions with a Scrum Alliance Certified Trainer
- **Attendance Requirement:** Full attendance is mandatory for certification
- **Assessment:** After training, you'll be registered for the Scrum Alliance online exam
    - 50 multiple-choice questions
    - 60 minutes to complete
    - Passing score: 37 correct answers

Upon successful exam completion, you will receive:

- **Certified ScrumMaster® (CSM)** credential
- **2-year membership with Scrum Alliance**
- **14 Category B PDUs (Professional Development Units)**

Prerequisites

Pre-course Preparation
