NetApp StorageGRID Administration Training

Duration: **3 Day**

BİLGİNÇ IT Academy
info@bilginc.com
bilginc.com

Learn how to administer NetApp® StorageGRID®, a software-defined, object-based storage system. Dive into the Grid Management Interface to manage, monitor, and maintain grid nodes, configure information lifecycle management (ILM) policies, and administer Simple Storage Service (S3) buckets. Explore tenant management through the Tenant Manager interface. Also, learn how to seamlessly integrate StorageGRID with NetApp solutions. This course is updated for StorageGRID 12.0.

Prerequisites

• StorageGRID Fundamentals

What You Will Learn

• Use the StorageGRID Grid Manager to monitor and manage a StorageGRID object-based storage solution
• Create and manage storage tenant accounts, groups, and users
• Configure information lifecycle management (ILM) rules and policies
• Configure the StorageGRID API Gateway Nodes for client access
• Manage Simple Storage Service (S3) buckets and objects
• Monitor StorageGRID system activity
• Perform grid maintenance tasks
• Integrate a StorageGRID system
