Overview

This five-day course is designed for professionals involved in implementing or supporting an**Extended ECM for SAP Solutions** environment.

Participants explore the **Extended ECM Platform** and its potential integrations with a range of applications. The course also introduces features and enhancements that are specifically relevant to SAP scenarios.

The programme focuses not only on using the solution but also on configuring it for SAP environments. Hands-on activities complement the course content, giving participants practical experience with key Extended ECM for SAP Solutions functionality and configuration.

By the end of the training, participants will be better prepared to design, implement, and administer **Extended ECM for SAP Solutions**.

Prerequisites

There are no prerequisites for this course.

What You Will Learn

By the end of the course, participants will be able to:

- Summarise how the Core Archive Connector is installed and configured
- Discuss common Core Archive archiving scenarios
- Perform key maintenance and administration tasks for the Core Archive Connector
- Describe the value proposition of Extended ECM for SAP Solutions
- Explain key business scenarios associated with Extended ECM for SAP Solutions
