Overview

Learn IBM Engineering Requirements Management DOORS V9.6 - Foundation course.

This course builds on the content learned in the “IBM Engineering Requirements Management DOORS V9.6 - Foundation” course. It is designed for those who will be in the role of team lead or project manager, or who want to learn more about advanced DOORS end-user functionality. It discusses creating and structuring DOORS projects, defining linking relationships and attributes, setting access permissions, and managing change. It also discusses external linking, working with spreadsheets, and applying configuration management strategies to DOORS data.
