Overview

The HPE InfoSight Analytics Professional course provides an overview and hands-on lab exercises covering the AI-driven management and predictive analytics features and functionality of HPE InfoSight. In this course, you use HPE InfoSight to analyze performance issues and to gain recommendations for HPE Alletra, HPE Primera, HPE 3PAR, HPE Nimble, HPE servers, HPE SimpliVity and HPE virtualization infrastructure solutions. This course is updated to include new and advanced features of HPE InfoSight

Prerequisites

No previous experience with storage arrays and virtualization are necessary, but some knowledge of storage array and virtualization terminology is recommended.
