C4H320 - SAP Commerce Cloud Business User Training

Duration: **3 Day**

BILGINÇ IT Academy
info@bilginc.com
bilginc.com

Overview

Course based on software release:

- SAP Commerce Cloud 2205

Notes:

- The course does not investigate details of project specific problems, but rather focuses on how to tackle most common project tasks in daily routine.
- Part of the training exercises is based on the SAP Commerce Cloud Accelerator module, but the composable storefront (previously known as Spartacus) is also included in the course material.

Prerequisites

Essential

- Fundamental understanding of web technologies and e-commerce concepts

Who Should Attend

- Business Analysts
- Functional Consultants
- Project Managers
- End Users
- QA managers
- Testers

What You Will Learn

- This course will prepare you to:
  - Describe and identify SAP Commerce Cloud features and user interfaces from a functional perspective.

Outline

- Overview
  - Major Modules
