Duration: **8 Day**

Overview

The **CMI Level 5 Certificate in Professional Consulting**, delivered by Austin Elliot and accredited by the **Chartered Management Institute (CMI)**, equips current and aspiring consultants with essential consulting knowledge, frameworks, and behavioural tools.

This 8-day programme provides a structured and reflective approach to consulting — helping learners understand the principles of client engagement, structured problem solving, and sustainable change delivery.

Delivered by seasoned consultants, the course focuses equally on**technical consulting methods** and **interpersonal skills** that build credibility and client trust.

Prerequisites

No formal qualifications required.
Participants should:

- Have an interest in consultancy or advisory work,
- Be open to reflection and practical learning,
- Aim to enhance their analytical and interpersonal capabilities.

Who Should Attend

Ideal for:

- Practicing consultants and advisors,
- Professionals transitioning into consultancy,
- Leaders managing internal advisory or change functions.

What You Will Learn

By the end of this course, participants will be able to:

- Understand the **purpose, ethics, and principles** of consulting,
- Manage the full consultancy lifecycle,
- Build and maintain **effective client relationships**,
- Apply **Core Strengths SDI 2.0** insights and emotional intelligence,
- Conduct structured research and data analysis,
- Design and deliver sustainable change initiatives,
- Present insights professionally to stakeholders,
- Ensure project continuity and closure.
