PRINCE2 Agile Foundation and Practitioner Certificate (v2.0) Training

Duration: **5 Day**

BILGINC IT Academy
info@bilginc.com
bilginc.com

This combined course provides comprehensive training in the PRINCE2 Agile framework, covering both Foundation and Practitioner levels. It equips learners with the knowledge, principles, and practical skills required to integrate PRINCE2's robust project governance with the flexibility of agile methodologies.

Prerequisites

There are no formal prerequisites for the Foundation level. To undertake the Practitioner exam, candidates must hold PRINCE2 Agile Foundation (version 2) or earlier.

Target Audience

This course is designed for:

- Scrum Masters
- Agile Coaches
- Project Managers
- Business Analysts
- Product Owners
- Product Managers
- Change Managers
- Project Managers
- Project Coordinators

What You Will Learn

By the end of this combined course, learners will be able to:

- Understand the principles and components of PRINCE2 and how they integrate with agile approaches
- Describe and differentiate between core agile concepts
- Apply the agile mindset and principles to project governance and team behaviours
- Tailor PRINCE2 principles, themes, and processes for agile project environments
- Adapt agile roles and responsibilities within the PRINCE2 structure
- Manage agile delivery within project tolerances, focusing on quality, risk, change, and stakeholder engagement
- Scale agile methods and integrate them with organisational goals and delivery models
- Use scenario-based techniques to resolve real-world challenges in hybrid projects
