Developing on AWS JAM Training

BILGINC
IT Academy
info@bilginc.com
bilginc.com

Duration: **1 Day**

In this AWS Jam, a gamified event, you will work in a team, competing to score points by completing a series of challenges according to established best practices based on concepts covered in the developing on AWS course course. You will get to experience a wide range of AWS services in a series of real-world scenarios that represent common application development tasks. The end result is developing, enhancing, and validating your skillsets in the AWS Cloud through real-world problem solving, exploring new services, features, and understand how they interoperate

Please note, should you require the full three day Developing on AWS' course with the JAM event please book our AMWSDJ4D 'Developing on AWS with AWS JAM' course instead

Prerequisites

earners should have previously attended AMWSD 'Developing on AWS' or have equvelant experience with AWS Cloud Services.
