NetApp ONTAP Data Protection Administration Training

Duration: **2 Day**

BILGINC IT Academy
info@bilginc.com
bilginc.com

Explore key concepts and techniques for protecting data on NetApp® ONTAP® based storage systems. Learn about the data protection solutions that are integrated in ONTAP software and examine the tools to manage ONTAP data protection features.

In the hands-on exercises, use NetApp ONTAP System Manager and the ONTAP CLI to perform key data protection tasks.

This course is updated for ONTAP 9.16.1 software.

Prerequisites

The 3 day OT-CLU-A Cluster Administration class should be taken as a pre-requisite in addition to the Data Protection, NAS & SAN Fundamental elearning classes accessed FOC via the NetApp Learning Center - please contact us for further support as appropriate.

NetApp ONTAP Data Protection Administration Training

Duration: **2 Day**

What You Will Learn

- Describe and distinguish the data protection features in ONTAP software
- Administer the appropriate ONTAP data protection feature to address your data protection concern
- Configure NetApp SnapMirror® relationships for disaster recovery and data backup
- Demonstrate storage VM disaster recovery (SVM DR)
- Illustrate NDMP-enabled operations to back up NAS data to tape
- Integrate the cloud-based data protection solutions that complement your ONTAP based storage systems
- Structure NetApp MetroCluster components and functionality
- Illustrate SnapMirror active sync components and functionality

Good to know

NetApp Learners Account - information needed at booking stage

In order for you to get the most out of NetApp Training and Certification, we require your NetApp Support ID for us to correctly assign your training enrolment. If you do not have an account, it is important you register for an account before the start of the course. This can be done via the following link: http://support.netapp.com/eservice/public/now.do

For all new and existing accounts, please login to your account, then whilst you are logged in follow this link http://learningcenter.netapp.com to validate your account by accepting NetApp Terms & Conditions (this is an important step to ensure registration synchronization).

If both classroom and virtual dates are available for this course please specify your preference when booking.

Why choose QA

- Award-winning training, top NPS scores
- Over 500,000 learners in 2024
- Our training experts are industry leaders
