Overview

Having the knowledge and understanding of the critical concepts and design components needed to create a QlikView document is essential to building effective and powerful QlikView documents. QlikView Designer is a scenario based course that utilizes a business case scenario to lead the participant through the processes and steps needed to build a QlikView document. The course is a combination of lecture/demonstration followed by hands-on activities.

Prerequisites

Basic knowledge of computer concepts; Knowledge of Key Performance Indicators

Who Should Attend

Business Users; Business Analysts; Data Architects

What You Will Learn

- Demonstrate basic knowledge of a QlikView data model in QlikView
- Explain how to best layout and design your QlikView application
- Explain basic use of QlikView sheet objects
- Identify, based on data provided, which chart will provide the best visual representation of data to the user

Outline

- Get Started with QlikView
- The ABC Sales Application
- The data model
