Introducing DevOps Training

BİLGİNÇ IT Academy
info@bilginc.com
bilginc.com

Duration: **1 Day**

The **training** is a **one-day fundamentals course** designed to help professionals understand the **origins, goals, and core pillars** of the DevOps movement — a bold approach that unites**Development and Operations** to deliver software faster, safer, and smarter.

Participants will explore how **Agile, Lean, automation, and collaboration** drive high-performing teams and organizations.

Why Take This Course?

- Build a strong foundation in DevOps culture and principles
- Understand how collaboration and automation transform delivery
- Ideal starting point before advanced DevOps certifications
- Designed for both **leaders** and **technical professionals**

Bilginç IT Academy is an officially **Accredited Training Organisation (ATO)** by **PeopleCert**, the global leader in professional certification and exam delivery.
As an authorized PeopleCert partner, we deliver accredited training and official certification exams for **ITIL®, PRINCE2®, DevOps, and other PeopleCert-certified programs**, ensuring our learners receive globally recognized credentials with the most up-to-date curriculum.

Visit our official PeopleCert partner page here:Bilginç IT Academy – PeopleCert Official Partner

Important Information:
This course is an official program accredited by PeopleCert and is offered**only together with the corresponding certification exam**. The course fee **includes the exam fee**.
Participants can take the certification exam online through PeopleCert's examination system and earn an internationally recognized certificate.
This practice is mandatory to ensure compliance with PeopleCert's quality standards and accreditation guidelines.

DevOps® is a registered trademark of the PeopleCert group. Used under licence from PeopleCert. All rights reserved.

Prerequisites

A basic understanding of**software engineering** and **application deployment** concepts is recommended.
