

An Introduction to iLife

🌐 Eğitim Tipi: **Classroom**

🕒 Süre: **2 Day**

Eğitim Hakkında

In this hands-on course, you will get an introduction to the features and interface of iLife, the suite of digital authoring tools that comes with every Mac: iPhoto, iMovie, GarageBand, iDVD, and iWeb. You will learn to create media-rich digital projects and share them online with a few clicks. You will learn to easily create stunning music, web sites, and photo books, and you'll learn to enjoy your photos and videos in exciting new ways.

Önkoşullar

There are no prerequisites for this course.

Kimler Katılnmalı

Anyone who prefers hands-on, interactive instruction to best explore the functionality of the iLife applications.

Neler Öğreneceksiniz

- Organizing and editing pictures in iPhoto
- Editing and sharing movies with iMovie
- Working with audio in iMovie
- Recording a podcast
- Creating a web site with iWeb
- Creating a blog

Eğitim İçeriği

iPhoto

1. Viewing and E-mailing Photos
