Overview

75% of learners would recommend this course.

- **Develop the confidence to lead organisational change using established methods and practical techniques.**
- **Designed for change managers and project managers working across complex transformation initiatives.**
- **Benefit from our partnership with APMG International, spanning more than 15 years.**

The **APMG Change Management Foundation and Practitioner Training** provides professionals with the knowledge, approaches and practical skills needed to manage organisational change, transition and transformation effectively. Recognised by APMG International as a leading certification for professionals involved in organisational change, the programme examines how change affects both organisations and the people within them.

Through an interactive learning experience, participants explore **individual and organisational responses to change**, **stakeholder engagement**, **effective communication**, **change leadership** and the techniques change managers use to support the successful implementation of transformation initiatives.

This **5-day training programme** consists of a **3-day Foundation course** followed by a **2-day Practitioner course**. Participants receive a digital copy of the latest **APMG Change Management v3 Study Guide**, additional learning resources designed to reinforce their understanding, and access to both the **Foundation and Practitioner certification examinations**.

Expert trainers from **Bilginç IT Academy** guide participants through a combination of learning resources, practical activities and interactive discussions. The participative training approach helps learners strengthen their knowledge and develop skills they can apply to real organisational change situations.

Prerequisites

There are **no formal prerequisites** for attending this training. However, previous involvement in organisational change initiatives may help participants gain additional value from the concepts and techniques covered.

Pre-course Preparation

Participants are provided with learning materials to help them prepare for the training sessions and make the most of the learning experience. These resources include:
