Overview

The HPE OneView for HPE Synergy Advanced Topics class covers advanced HPE OneView features, including automation, firmware, and driver updates, SPP management, troubleshooting and VMware Lifecycle Management. This class uses both real hardware and DCS.

Prerequisites

Prior to this course, students should be able to perform HPE OneView and HPE Synergy administration tasks on their HPE Synergy environment. It is strongly recommended that students complete the H0LN3S HPE Synergy Administration course and achieve at least six month's experience prior to attending this course.
