NetApp ONTAP Advanced Networking Training

Duration: **2 Day**

BİLGİNÇ IT Academy
info@bilginc.com
bilginc.com

Learn how to configure and manage networking in NetApp® ONTAP® clusters. The ONTAP Advanced Networking course is a comprehensive, hands-on training program designed for technical professionals who need to understand, configure, and manage networking in ONTAP environments. Whether you are new to ONTAP or looking to deepen your expertise, this course provides a structured and layered approach to mastering ONTAP networking—from foundational concepts to advanced configuration and troubleshooting.

Prerequisites

- ONTAP Cluster Administration (ILT)

What You Will Learn

• Describe the ONTAP networking architecture

• Identify and configure ONTAP network components

• Implement and manage ONTAP network services

• Secure ONTAP network traffic

• Optimize network performance and reliability
