Palo Alto Networks: Panorama NGFW Management Training

Duration: **2 Day**

BİLGİNÇ IT Academy
info@bilginc.com
bilginc.com

The Palo Alto Networks Panorama: NGFW Management course is two days of instructor-led training that should help you to:

- Learn how to configure and manage the next-generation Panorama management server

- Gain experience configuring templates (including template variables) and device groups

- Gain experience with administration, log collection, and logging and reporting

- Become familiar with planning and design considerations for Panorama deployment

Prerequisites

Participants must be familiar with Palo Alto Networks next-generation firewall management and basic networking concepts, including routing and IP addressing.

In addition, participants should complete the following pre-requisites to be optimally prepared for the course:

- Firewall Essentials: Configuration and Management or equivalent experience.

What You Will Learn

This course should help students gain in-depth knowledge about configuring and managing a Palo Alto Networks Panorama management server. Administrators that complete this course should become familiar with the Panorama management server's role in managing and securing the overall network.

Network professionals will be shown how to use Panorama aggregated reporting to provide them with a holistic view of a network of Palo Alto Networks next[1]generation firewalls.
