Overview

This {*training} is an essential prerequisite for most follow-on training programs.
You will configure the required **infotypes** for payroll and benefits processing.
Ideally, this course should be completed before the blueprinting stage of your project to ensure optimal setup of your **HCM structures**.
Your entire business processes will rely on the decisions you make regarding these structures.

Prerequisites

Essential: HR050 – Business Processes in Human Capital Management
Recommended: HR110 – Business Processes in HCM Payroll

Who Should Attend

- Application Consultant
- Business Process Owner / Team Lead / Power User
- Data Consultant / Manager

What You Will Learn

By the end of this {*training}, you will have gained knowledge and skills in the following areas:

- Design the personnel structure
- Update the organizational structure
- Manage relationships between planned working time and basic pay
- Configure wage types and increases
- Set up customizing procedures and identify interfaces
