Overview

International Business Analysis Trainings are aligned with IIBA® BABOK® (Business Analysis Body of Knowledge®) standards. These interactive and practical trainings aims to train the participants with best of breed business analysis processes, techniques, tools and methodologies consistent with the BABOK®. They also prepare participants to IIBA® CBAP® (Certified Business Analysis ProfessionalTM), CCBA® (Certification of Capability in Business AnalysisTM) and ECBA® (Entry Certificate in Business AnalysisTM) certification exams with the latest business analysis techniques, methodologies and Harvard Case Studies.

For IT professionals we offer not only knowledge but also new perspectives and hands on practices which they can implement immediately after the training.
