## Overview

The ITIL® 5 Foundation Bridge training is a fast-track course designed for professionals who already hold an ITIL® 4 certification and need to transition efficiently to ITIL® 5. Instead of revisiting existing knowledge, this course focuses exclusively on the new and updated elements introduced in the latest framework.

As service management continues to evolve alongside AI, cloud computing, and data-driven operating models, this training enables organizations to stay aligned with modern digital ecosystems. By the end of the course, participants will be fully prepared for the ITIL® 5 Foundation Bridge exam and capable of applying updated practices in real-world scenarios.

**Bilginç IT Academy** is an officially **Accredited Training Organisation (ATO)** by **PeopleCert**, the global leader in professional certification and exam delivery.
As an authorized PeopleCert partner, we deliver accredited training and official certification exams for **ITIL®, PRINCE2®, DevOps, and other PeopleCert-certified programs**, ensuring our learners receive globally recognized credentials with the most up-to-date curriculum.

Visit our official PeopleCert partner page here:Bilginç IT Academy – PeopleCert Official Partner

**Important Information:**
This course is an official program accredited by PeopleCert and is offered**only together with the corresponding certification exam**. The course fee **includes the exam fee**.
Participants can take the certification exam online through PeopleCert's examination system and earn an internationally recognized certificate.
This practice is mandatory to ensure compliance with PeopleCert's quality standards and accreditation guidelines.
