- 4th attempt: after 30 days
- Additional attempts: $50 USD each

Why Choose This Training?

This course helps product managers align product strategy with business goals and evolving customer needs. You'll learn how to bring ideas to life faster and more efficiently, while maintaining alignment with your organization's portfolio, architecture, and long-term vision—delivering **value at scale**.

Prerequisites

- Familiarity with Agile principles and basic SAFe knowledge
- Completion of a previous SAFe course or hands-on experience in a SAFe environment
- Background in product or solution management is highly recommended
- Pre-course online learning module (~3 hours, video-based) must be completed prior to training (SAFe Studio account required)

Who Should Attend

- Product Managers and Product Owners
- Product Marketing Managers and Project Managers
- UX/CX Designers and Customer Experience Professionals
- Product Leaders working with SMEs, Architects, and Business Owners
- Agile Team Members and SAFe Practitioners
