Overview

Build a Strong Foundation in Scrum and Agile Practices

The Scrum Alliance Scrum Essentials Micro-Credential is an introductory program designed to provide professionals with a practical and structured understanding of the Scrum framework. Through interactive instructor-led sessions, participants explore Agile values, Scrum principles, team responsibilities, events, artifacts, and real-world applications.

This micro-credential combines foundational knowledge with hands-on learning experiences, helping learners understand how Scrum supports collaboration, adaptability, and value delivery across different industries and team environments.

Upon successful completion, participants receive a lifetime-valid digital badge issued by Scrum Alliance.

Prerequisites

There are no formal prerequisites for this course.

Basic familiarity with teamwork, project delivery, or product development may be beneficial but is not required.

Who Should Attend

This course is ideal for:

- Professionals new to Scrum and Agile
- Project Managers
- Product Managers
- Team Members
- Agile Practitioners
- Professionals seeking a practical Scrum refresher
- Individuals working in IT, HR, Retail, Education, Healthcare, Manufacturing, and Government sectors
