+44 20 3807 0925
+90 212 282 7700

Overview

This {*training} provides the foundational knowledge required to understand the end-to-end business processes of a highly integrated SAP S/4HANA system.
The content applies to both **SAP S/4HANA Cloud Private Edition** and **SAP S/4HANA On-Premise** deployments.
It also prepares participants for the **C_TS410 certification exam** (versions 2022 and 2504).

To maximize exam success, participants are encouraged to allocate extra time for reviewing the course material in detail and practicing exercises in a training system.

Prerequisites

Essential:

- Basic knowledge of business processes in enterprise resource planning and management

Recommended:

- None

Who Should Attend

- Application Consultant
- Business Process Architect
- Business Process Owner / Team Lead / Power User
- Enterprise Architect
- Program/Project Manager

What You Will Learn

By the end of this {*training}, you will have gained knowledge and skills in the following areas:

- Navigate confidently within the SAP S/4HANA system
- Describe how various business transactions are executed in SAP S/4HANA
- Explain integration scenarios within the SAP Business Suite
