## **Overview**

For organisations to succeed in Digital Transformations, Business Leaders must take control and sound the charge. In this event, you will learn how to define digital and adapt it to your context. You will understand the journey of transformation that you and your organisation must go on to adapt with agility and confidence.

You will learn how to:

- Understand and define Digital Transformation - understanding disruption, threat and opportunity
- What leaders need to know about Emerging Technologies
- Leadership in the Digital Age – the role of leaders in adaptive organisations
- How High Trust Digital Cultures deliver innovation and agility
- Starting the change and maintaining the pace - creating a continuous improvement culture
