

BCS Software Testing Intermediate (inc examination)

Learn via: **Classroom / Virtual Classroom / Online**

Duration: **3 Gün**

Overview

Bu eğitim ile Yazılım Testinde BCS Orta Seviye Sertifikası Sınavı'na (bu eğitimin sonunda düzenlenmektedir) giriş hakkı elde edildiği gibi test analistleri ve test yöneticilerine de oldukça pratik bilgiler ve teknikler verilmektedir.

Üç günlük bu eğitimde dersler, atölye çalışmaları, alıştırılmalar ve örnek sınav soruları yer almaktadır. Eğitim ağırlıklı tartışılan konuların pratiği üzerine yoğunlaşmaktadır. Eğitimin ardından katılımcılar çalışma yerlerinde uygulayabilecekleri test becerileri ve tekniklerine sahip olacaklardır.

Prerequisites

A thorough knowledge of the Foundation Syllabus is essential. The recommended source is the BCS textbook 'Software Testing - A BCS Foundation' by Hambling et al, or recent attendance of the Foundation course (STF-2). Examination candidates must hold the BCS Foundation Certificate in Software Testing.

Pre-study: Delegates are strongly recommended to revise the Software Testing Foundation materials before attending this course.

Please Note: Please ensure you take your Software Testing Foundation Certificate number or software testing foundation certificate with you to the course, as this information is required by the examining board when registering for the exam.

What You Will Learn

At the end of this course you will be able to:

- Define testing approaches in different life cycles and domains
- Understand how to apply review techniques effectively
- Perform risk analysis techniques
- Address test management areas of planning, monitoring and controlling
- Select and apply the most appropriate test analysis techniques

Outline

Testing Fundamentals

Review of the foundation Certificate Syllabus; Application Domains; Testing in the life cycle; Fundamental test process

Reviews

Types of review; Principles of Reviews; Using Different Review Types; Performing a formal review

Risk

Introduction to risk and risk-based testing; Risk Management; Product Risk Identification and Analysis

Test Management

Test Policy; strategy & test plans; Analyse Test Policy; strategy & test plans; Test Entry & Exit Criteria; Estimating Techniques; Test Monitoring; Analyse a summary report; Incident Management

Test Analysis

Fundamentals of Test Analysis; Test Environment Requirements; Selection of techniques; Coverage Measures

Mock Exam

Structure of the Intermediate Certificate in Software Testing Exam

- The examination consists of a one hour exam with 25 scenario-based multiple choice questions.
- It will be a 'closed book' examination i.e. no notes or books will be allowed into the examination room.
- Duration of 60 minutes (or 75 minutes for candidates taking examinations that are not in their native language)
- No study material or electronic devices (including mobile phones) may be used during the examination.
- Candidates are allowed to use simple non-programmable calculators (to be provided by the candidate).
- An official translation of terms (not their definitions) from the ISTQB® Glossary to the local language is allowed.
- Candidates taking exams that are not in their native language may use a paper-based translation dictionary.
- The pass mark is 60% (15 out of 25).
