Overview

Moving into a management role requires far more than technical expertise. Successful managers know how to motivate people, manage performance, communicate effectively, and create an environment where teams can thrive.

This practical management development course is designed to equip new managers with the essential skills needed to lead confidently and achieve results. Through interactive exercises, role-playing activities, self-assessments, and real-world scenarios, participants learn how to manage performance, coach employees, delegate effectively, and build motivated teams.

By the end of the course, participants will have practical tools and techniques they can immediately apply in their workplace.

Who Should Attend

This course is ideal for:

- Newly appointed managers
- Managers with one to three years of experience
- Team leaders and supervisors
- Professionals preparing for future leadership roles

What You Will Learn

By the end of this course, participants will be able to:

- Understand the responsibilities of an effective manager
- Apply performance management best practices
- Set goals and provide meaningful feedback
- Adapt leadership approaches to different employee needs
- Conduct coaching conversations confidently
- Build a motivating work environment
- Delegate work effectively to support employee development
- Improve team performance and engagement
